### JEWS TOLD BY BRANDEIS OF ZIONIST PLANS.

**U. S. Judge Explains the Work Already Accomplished in Palestine.**

American Jewry's program for restoring Palestine as the Jewish homeland, was discussed for two hours yesterday by Justice Louis D. Brandeis of the United States Supreme Court and Felix Frankfurter of Harvard University.

It was the first time the "silent leader" of Zionism—Justice Brandeis—has spoken in Chicago. With Mr. Frankfurter he detailed observations made in Palestine and at the peace conference, to members of a committee drafting resolutions for the twenty-second convention of Zionists. The committee met behind closed doors.

Justice Brandeis' views, incorporated with those of the committee, are to be brought before the convention in the following report:

"First—The political situation concerning a Jewish Palestine is eminently satisfactory.

#### Preparatory Work Begun.

"Second—The period of practical, preparatory work in Palestine has begun. The forms which this work should take are:

"A. A campaign against malaria to be waged vigorously in advance of any extensive immigration.

"B. The purchase of lands on an extensive scale by the Jewish National Fund, the Zion Commonwealth, Inc., and other land purchasing corporations of the Zionist movement.

"C. Afforestation to prevent the encroachment of sand, to stabilize the rainfall and to provide a timber supply.

"D. Irrigation.

"E. Strong financial support should be given to the Hebrew University.

"Third—Palestine can eventually contain a very large population. The lines of development should be agricultural, industrial and commercial. In order that these may be accomplished considerable investigation and preparatory study of the land must be made.

#### Americans Win Privilege.

"Fourth—The privilege of the task of laying the foundations of a Jewish Palestine is accorded to the Jews of America owing to the present economic conditions of the Jews of Eastern Europe.

"Fifth—The principle for which the Zionists have striven during the last twenty-three years having actually been sanctioned by public and official opinion, political discussion should cease. Every Jew can be, and should be, invited to join in all of the practical tasks that must be undertaken for the development of a Jewish Palestine.

"6. This development will require vast sums of money, which only the masses, including labor and capital, are rich enough and strong enough to raise. Therefore, all present differences of opinion within the movement and concerning the movement must be forgotten and all the Jews of the world must participate in this great work.

#### Plan Can Be Carried Out.

"7. The development of Jewish Palestine in its entirety can be carried out and at the same time the condition and welfare of the other peoples in Palestine be greatly improved."

Leaders point out the above program will probably be adopted unanimously by the convention proper as representing the sentiment of American Jewry. With reference to financial aid for the movement, one term of significance was pointed out.

Zionists will welcome the aid of capitalists, but the smaller sums, the poor man and poor woman's mite, will not be overlooked.

Last night at the Auditorium Theater Dr. Harry Friedenwald and Robert Szold, secretary of the Zionist Administrative Commission in Palestine gave a report on conditions in the new homeland. The land situation was discussed by Mrs. Mary Fels, a Philadelphia famous as a single taxer, and by Bernard Rosenblatt of New York.

#### Begins Buying Land.

Mrs. Fels' report followed a meeting yesterday of the directors of the Zion Commonwealth, Inc., a land development company with a fund of more than \$1,000,000. The company has already started to buy land and options.

It will so be parceled out to investors that they can take advantage of the lowest rates. Profiteering in land values will be eliminated. All unearned increment will go to the Jewish state. The state also will have all timber and mineral rights and will own and operate all public utilities.

In fact, every practical scheme of today which cannot be tried out where vested rights obtain will be given an experiment in Palestine. Palestine will be the first state in which an attempt will be made to escape all those pitfalls that experience has taught the nations of the world result from boss run systems.

#### Finance Department Formed.

The Palestine commission, Mr. Szold reported, first organized a finance department.

The department of agriculture, he reported, directly supervises the agricultural work of thirty-one co-operative groups, furnishes the colonist with new and improved methods of agriculture, horticulture, cattle and bee keeping.

The department of education has established a school system embracing eighty-six schools, 465 teachers, and schools where from the kindergarten to the gymnasium 11,319 pupils are taught in Hebrew.

The department of engineering, he said, is now draining the marsh coast to remove malaria. The medical department embraces the work of Hadassah or the American Zionist medical unit with a sphere of activities that includes modern hospitals, outpatient clinics direct medical relief, sanitary inspection, anti-malaria and anti-trachoma operations.

#### Other Problems Taken Up.

The Zionist organization is also conducting work in Palestine concerned with labor and immigration, trade and industry, relief, housing, sewage disposal and other problems.

At a meeting of the Hadassah, the women's branch of the movement, Mrs. A. H. Fromenson, head of the Palestine supply department, and Miss Sophia Berger, yesterday brought the message that Palestine needs immediate attention that health and sanitary conditions may be improved. Five thousand Jewish women pledged themselves to make sure this is done.

Miss Henrietta Szold acted as chairman and other officers named were Miss Ida S. Danzinger, secretary; members of administrative committee Mrs. Fromenson, Mrs. C. Greenfield, Mrs. E. Jacobs, Mrs. H. B. Lefkowitz, Mrs. J. Sobel, Mrs. E. Weinheim, Mrs. Peter Schwertzer and Miss Anna Abramson.

While Hadassah was in session Dr. Stephen S. Wise and Rabbi Max Heller of New Orleans were organizing a reform body of rabbis to be known as the Association of Zionist American Rabbis.

In connection with the convention also, the Zionist Society of Engineers and Agriculturists has established offices at the Congress Hotel.—Chicago Herald and Examiner.
